NEEDS AND USES: Information collected using the DD Form 1833 is necessary to positively identify, authenticate, support and recover isolated or missing DoD persons of interest. The Isolated Personnel Report (ISOPREP) collects controlled unclassified information in the form of full name and associates the name with sensitive personal identifiable information including date of birth, Social Security number, DoD Identification number, pictures and fingerprints. The ISOPREP also collects confidential information in the form of personal authentication statements and codes known only to the individual who completes the ISOPREP. All personnel completing an initial ISOPREP are required to utilize the Personnel Recovery Mission Software (PRMS) web application. In rare instances where personnel do not have access to PRMS, a hardcopy DD Form 1833 can be completed. In the interest of protecting the force and returning personnel who support the DoD to their units, families and country, the information collected for the ISOPREP is a force requirement for DoD military and civilians serving overseas.
